maria.herrero@valent.com **Subject:** OECD meeting in
Arlington .

Deal All,

this was a great opportunity to have you all in the OECD
Workshop on Biopesticides Regulation and
Communication in Arlington.

We hope that this gave you a good idea about the type of
discussion and topics that the OECD BPSG covers.
IBMA which has been one of the initiator of this Group is
fully dedicated with its activities and we hope that we can,
in the future re-inforce our collaboration, in order to
safeguard the interests of the entire Biocontrol Industry.
We feel that this strong and valuable Industry participation
provided a good impression to the present regulators.

We are going to discuss the possibility for me or another
IBMA executive to join BPIA in your October meeting and
we will naturally appreciate if any of the BPIA members
can participate to the forthcoming Annual Biocontrol
Industry Meeting, taking place now regularly in Lucerne,
Switzerland on 20th and 21st October.

Kind regards

Bernard J. Blum agrometrix.blum@balcab.ch
